

What you need :

1. Construction Paper (we used red and green but you can use as many and whatever colors you want.)
2. One piece of black construction paper for the base
3. One piece of yellow construction paper for the star
4. One piece of construction paper for the background
5. Glue

Directions:

Cut your construction paper into strips of varying length so that it will look like a Christmas tree in the end. Glue the strips down in different directions from biggest at the bottom to smallest on top. Glue down the base. Glue down the star. A simple and easy project for preschoolers!
