

What you need:

1. Hand paints – whatever colors you like to paint a peacock
2. Paint brush
3. Newspapers
4. White paper/construction paper
5. Scrap paper

Directions:

Taking the newspapers, lay them out on the table you will be working on. Put some of the hand paint down on the scrap paper. Have child put his hand in the paint. Then take the hand and lay it out like a fan in four different ways on the construction paper. Then have the child take the paint brush and put some different colors on the “feathers” of the bird. Then have the child paint a beak and you should be good to go! Have fun!
